At **WERKSITZ**, we are committed to providing ergonomic workplaces, thereby making a significant contribution to health and productivity.

And we stand by this commitment

The Milewski Family

# TEAM SPIRIT AND FRANCONIAN FAMILY TRADITION -

# GUARANTEES FOR RELIABILITY AND LASTING VALUE.

As "the specialists for workplace ergonomics", we have been committed to providing customers with optimum products for the workplace since 1980. Over the years, we have developed a comprehensive range of swivel chairs and workplace floor mats in standard and customised designs for industry, trade, laboratories and workshops for the disabled.

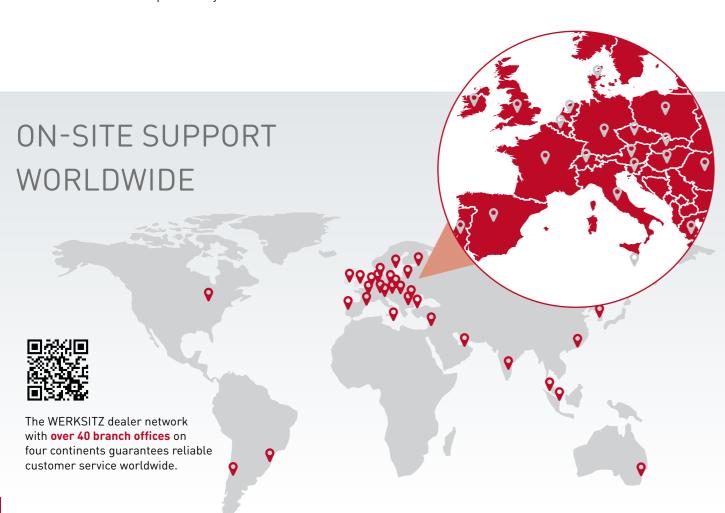

Our custom-tailored products offer contemporary solutions for more comfortable sitting and standing and meet all special ergonomic workplace requirements, thereby making a significant contribution to health and productivity.

We put special emphasis on quality products that are reliable, durable and backed by a long-term warranty. The modular design of our products offers maximum flexibility and investment security along with a spare part replacement guarantee for all of our components.

This is what we stand for as a sound Franconian family business. Take advantage of our no-obligation free trial to experience our quality for yourself.

The WERKSITZ TEAM

### **OUR WARRANTY SERVICES AT A GLANCE**

- ✓ 3-year warranty on the Econoline series and the 7xxx chair series.
- √ 5-year warranty on the WS 14xx wet room series
- ✓ 10-year warranty on all other products. At ten years, this long-term warranty is one of the best offered in the industry.
- ✓ 10-year spare part replacement guarantee.
- ✓ Return guarantee: At WERKSITZ, we take our responsibility to the environment seriously, which is why we manufacture our products in accordance with the strictest ecological principles.

Guarantee services are for standard industrial use of eight hours per day and 220 workdays per year. The warranty period is correspondingly shorter for multi-shift operations.

Guarantee services are covered by general warranty regulations and do not include vandalism or improper use.

Exclusively from WERKSITZ 2-year warranty extension

You will receive a **2-YEAR WARRANTY EXPIRATION** according to a maintenance inspection. It is possible to extend this warranty for an additional two years as many times as you like!

#### SPECIALISTS FOR CUSTOMISED SOLUTIONS

We are the only supplier in the industry that offers customised solutions for every requirement. Talk to our competent, experienced employees today. We are

happy to design and build a custom chair for you and your application right in our own workshop. Guaranteed!

4

#### Your labour force is invaluable to you

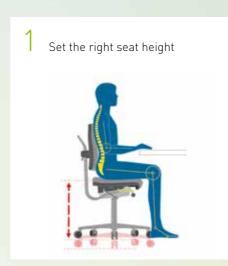

The health of employees is a company's greatest asset. The "quality of sitting" has become an important health factor.

Different working areas demand intelligent work chair solutions. The ergonomic WERKSITZ concept promotes correct posture while seated and addresses the unique demands placed on a good work chair.

WERKSITZ effectively counteracts back pain with its ergonomic work chair concept and ensures a healthy, comfort-

# **ERGONOMICS GUIDELINES**

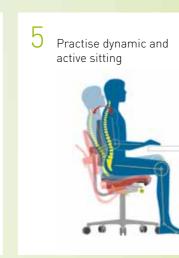

### 5 TIPS FOR HEALTHY, RELAXED SITTING

4 Set the right seat tilt

i For more information about the fit!" ergonomics concept visit werksitz.de/machmit

# We value ergonomic able sitting position at work.

posture and rely on WERKSITZ chairs. A new DIN-compatible work chair costs less than one lost day of work due

to back pain.

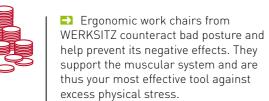

#### Invest in the health of your employees and save money in the process

A good work chair pays for itself by significantly reducing the costs due to lost work time. A single lost day of work costs more than an ergonomic chair! But beyond preventing lost work time due to injury and illness, a good work chair also contributes to a worker's sense of wellbeing at work, promotes concentration and boosts performance.

People spend one third of their professional lives sitting on their work chairs. Anyone who performs strenuous or repetitive tasks in the workplace needs a chair that will provide them with proper support. WERKSITZ work chairs can be adapted to any working situation and provide excellent stability and support, yet they do not restrict freedom of movement.

Frequently changing your posture while seated reduces one-sided, unhealthy strain on the muscles and the intervertebral discs. The spinal column assumes its natural S-shape and takes the strain off the intervertebral discs and the buttocks, which improves blood circulation and the supply of nutrients. This enables the intervertebral discs to regenerate while simultaneously boosting concentration and performance.

### SAFETY AND QUALITY

We are the "specialists for workplace ergonomics", after all, so certified safety and quality are our top priorities.

This is why we develop all of our components in house. Our plant in Zeil am Main is your guarantee for quality.

To ensure that WERKSITZ products always work reliably, we subject them to an extensive range of tests before our work chairs leave the factory.

WERKSITZ work chairs meet the strin-

safety standards.

Directives.

### THE WERKSITZ MODULAR DESIGN CONCEPT

Our modular system provides almost unlimited options, all components are screwed on and attached to the chair. This ensures that all chair elements are easy to replace. So you can create your own personalised chair, which can be enhanced with a wide range of additional accessories.

We are also happy to manufacture customised solutions for you. Your WERKSITZ product comes with all of the advantages that have made our work chairs so popular: High quality paired with cutting edge research, technology and occupational health insight and expertise.

Design your own chair with our WebConfigurator: www.werksitz.com/ english/configurator

#### 4. Armrests

Armrests feature a variety of designs and materials such as Soft PUR integral foam, synthetic leather, fabric or wood. They can be assembled in fixed or height-adjustable formats or with a 3D multifunction (even on existing chairs).

#### 1. Backrests and covers

Armrests are available in a number of different designs and sizes. Choose from Soft PUR integral foam, synthetic leather, fabric or wood.

#### 2. Seat bases

Choose from a variety of seat designs and materials including Soft PUR integral foam, synthetic leather, fabric or wood.

#### 3. Seat supports

We developed these premium-quality seat supports ourselves. They feature a modular design along with easycare maintenance and repair.

#### 5. Chair columns

Chair columns in different sizes with gas pressure springs are available in heightadjustable, chrome-plated or powdercoated (black) versions. They can also be fitted with a column cover on request.

#### 6. Five-star bases

Our five-star bases are made of highquality polished diecast aluminium.

#### 7. Castors, glides and disc bases

Depending on the field of application, our work chairs can be fitted with castors, glides or disc bases.

\*) if properly used in single-shift operation (excluding wear parts)

# WERKSITZ KLIMASTAR -PERFECTION IN **COMFORT AND ERGONOMICS**

Optimum seat climate and comfort thanks to continuous

We do not want to sacrifice healthy posture while seated or a pleasant seat climate. This is why we chose the WERKSITZ Klimastar chair.

### KLIMASTAR - The premium work chair from WERKSITZ

- Functionally arranged ad
  - justing elements Easy and intuitive operation

Seat positions can be adjusted easily, with just a few quick motions. Adjusting elements are functionally arranged and easy to use.

#### Great climate

- Fully perforated seats and backrests
- Maximum air circulation
- Optimum seat climate

Fully perforated seats and backrests provide continuous air circulation and an optimum seat climate\*.

\* Studies conducted by the chair of ergonomics at the Technical University of Munich showed that perforated seats demonstrate significantly superior microclimatic properties (wet and dry heat transport) over seats without perforations. (Zeitschrift für Arbeitswissenschaft)

#### Hygienic

- Removable cushions
- Easy to clean

Removable and interchangeable Soft PUR integral foam cushions ensure optimum occupational hygiene, especially in multishift operations.

Also available in an ESD model as an electrically conductive swivel chair for protection against electrostatic discharge in accordance with the EN 61340-5-1 standard.

#### Ergonomic

- Adjustable height
- Large, tilt-adjustable seat High backrest:
- Adjustable height
- Supports the upper back
- Relieves the spine
- Protects the kidney area Precision backrest contact pressure adjustment
- Motion-synchronous pivot point shifting
- Ergonomically designed seat and back cushions

Our chairs offer plenty of room for healthy, dynamic sitting thanks to their ergonomic, tilt-adjustable seats and high backrests with individually adjustable contact pressure.

Ergonomic innovation featuring motion-synchronous pivot point shifting. This prevents the user's shirt from "riding up" as a result of an awkward reclining angle

### Swivel locks

Swivel locks are available in a number of different designs for all KLIMASTAR and CLASSIC chairs.

#### Five-star bases

#### Disc bases

### OVERVIEW OF ACCESSORIES

#### Parking brakes

■ Black powder-coated ■ With hand release lever

(250 mm lona)

Only in combination with xx20 diecast aluminium five-star bases

#### Foot release Order no.: -078.F

■ Effortless height adjustment and contamination-free work while comfortably seated

#### Castors

■ All WERKSITZ dual castors feature load-dependent braking. We offer a selection of different load-dependent braking castor models for hard, soft and ESD

#### Separate footrests

- Sturdy, black powdercoated round tube construction
- Anti-slip wooden footplate
- Width 350 mm, depth 300 mm
- Tilt adjustment from 0° to 20°, mounted on pendulum bearings
- Height adjustment range from 120 to 250 mm

■ With chrome-plated

Only in combination with

xx20 diecast aluminium

foot pedal

- Sturdy, black powdercoated round tube construction
- Anti-slip wooden footplate
- Width 500 mm, depth 300 mm
- Tilt adjustment from 0° to 20°, mounted on pendulum bearings
- Height adjustment range from 120 to 410 mm

- Sturdy, black powdercoated round tube construction
- Height adjustable by foot release
- Anti-slip wooden footplate
- Width 500 mm, depth 300 mm
- With height adjustment using a safety gas spring
- Tilt adjustment from 0° to 20°, mounted on pendulum bearings
- Height adjustment range from 170 to 310 mm

- Sturdy round tube construction
- Anti-slip metal footplate
- Width 500 mm, depth 300 mm
- Tilt adjustment from 0° to 20°, mounted on pendulum bearings
- Suitable for foot switch Height adjustment
- range from 120 to 410
- Also available in an ESD model (WS 5050 ESD)

- Wet room footrest
  - Sturdy tube construction
  - Anti-slip footrest
  - Width 500 mm, depth 300 mm
  - Tilt adjustment from 0° to 20°, mounted on pendulum bearings
  - Height adjustment range from 120 to 410 mm

Foot release with built-in button

■ Chrome-plated

### Printed colours may differ slightly from the actual colours.

#### Soft PUR integral foam

THE CHOICE IS YOURS - OUR COLLECTION OF COLOURS

Black is the standard colour used; all other colours available for an additional charge (except WERKSTAR and KLIMASTAR model).

#### Synthetic leather 2) (flame retardant - except for lab mint colour)

Comfortable seating, air permeable,

durable, dirt-repellent, cold/heat resistant,

blood/urine resistant, disinfectant resistant.

All colours available without extra charge.

Also available in genuine leather on request

Alcantara leather with custom

embroidery available on request.

#### Black Amazona

#### Fabric 2)

**Tiffany** (only available for Werkstar)

100% acrylic or 95% acrylic + 5% polyester on ESD models or 100% Trevira CS on flame-retardant designs.

Free of AZO dyes, 100% CFC-free manufacturing, conforms to all European environmental directives.

#### NEW NANOTEX fabric - dirt-repellent and flame retardant B1

#### 3D honeycomb fabric 2)

Helps protect against mould and mites.

100% Polyester. Highly breathable, excellent air circulation, highly elastic, very good

Other colours available on request. Honeycomb thickness 2 mm

shape recovery, antiallergenic and poses no health risks.

Two-colour

(only available for Werkstar)

Wood

- Does not apply to the WERKSTAR series
- A range of colours available on request / for an additional charge Also available in flame-retardant versions in accordance with the DIN 4102 B1 standard (not ESD)
- 5) Available with extra charge

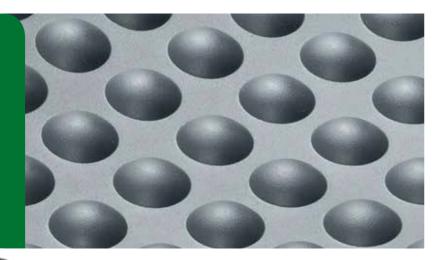

Also available on request.

### **WERKSTEP WORKPLACE MATS**

Promotes health and prevents injury thanks to safe, healthy standing.

This investment really paid off for us! Our employees benefit from an ergonomic workplace that puts health and safety first. This makes everyone more motivated and productive.

#### WERKSTEP workplace mats - the right choice for standing workstations

Our bodies are not made for walking or standing on hard floors. Constant standing puts pressure on our back, placing a heavy load on our musculoskeletal system. The non-physiological curvature of the spine places stress on the intervertebral discs.

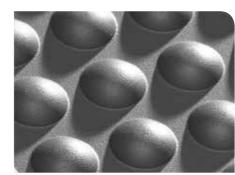

Physical activity inhibits the necessary metabolism between the intervertebral discs and the vertebral bodies. Constant standing also causes the muscles to work statically, which in turn impairs blood circulation in the muscles.

#### Making healthy standing easy!

The elastic texture and knobbly surface of WERKSTEP work mats reduce the stress placed on bones, joints and muscles. Pressure on the sensitive toe and ball sections of the foot is reduced considerably as the mats cushion the weight of the body. This helps keep the feet in motion, imperceptibly stimulating circulation. The WERKSTEP workplace mat promotes blood circulation in the legs.

WERKSTEP workplace mats promote health and prevent injury, helping employees stand continuously without placing undue stress on their bodies.

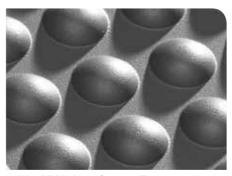

#### The WERKSTEP range of products

WERKSTEP Comfort mat: The universal, extremely rugged mat for wet and dry

mat for workplaces that require frequent rotating.

WERKSTEP Classic mat: The rugged, economical mat for all dry areas.

WERKSTEP Hydrofit mat: The mat for workplaces exposed to water, oil or chips and shavings.

#### So many great reasons

The WERKSTEP workplace mat is an ergonomic floor covering that has been researched and tested to respond to the permanent stress of standing worksta-

The basic material is made of polyurethane, a closed cell structure with a durable surface featuring a silky matte finish and visually appealing outer skin. WERKSTEP workplace mats are made using an especially dense basic material that provides a stronger return force for superb durability.

#### **WERKSTEP** workplace mats feature:

- High wear resistance
- Good behaviour characteristics even at extremely low temperatures
- Extraordinary ageing resistance
- Long life
- Extreme dimensional stability
- Durability
- Environmental compatibility (free of silicone, CFC, HCFC, PVC, propellant gas and solvents)

#### Protecting, insulating and easy to care for WERKSTEP workplace mats protect

and insulate floor coverings and ground surfaces. Their attractive design creates a clean, friendly workplace atmosphere. They are easy to handle and clean.

#### Flexible and individual

The standard dimensions of 60 x 90 cm can be adapted to create custom-tailored solutions for workstations of any size or shape. Our variety of styles leaves nothing to be desired.

#### Select from:

- A variety of materials
- A range of colours
- Anti-static design
- Anti-slip
- Flame retardant
- Water repellent

### 5-YEAR WARRANTY 🗸 WERKSTEP WORKPLACE MATS SUITABLE FOR ALL TYPES OF APPLICATIONS

#### **WERKSTEP** Comfort

#### **WERKSTEP Drehfit Comfort**

#### **WERKSTEP Duofit Comfort**

#### Use:

In wet and dry areas

Material: Polyurethane on polyether basis

#### **Properties:**

- Colour: charcoal
- Weight: 3 kg, thickness: 14 mm
- Temperature resistance: -35°C to +95°C
- Electrical resistance: 10<sup>6</sup> Ω (on ESD model)
- Flame retardant (fire class: B1 according to DIN 4102/FMVSS 301)

#### Optional design:

- Anti-static
- Anti-slip
- Colour
- ESD model

Surface: knobbly Underside: smooth

- In wet and dry areas
- For workplaces that require frequent

Material: Polyurethane on polyether

#### **Properties:**

- Colour: charcoal
- Weight: 3 kg,
- thickness: 12 mm
- Temperature resistance: -35°C to +85°C
- Electrical resistance: 10<sup>6</sup> Ω (on ESD model)
- Flame retardant (fire class: B1 according to DIN 4102/FMVSS 301)

#### Optional design:

- Anti-static
- Anti-slip
- Colour
- ESD model

Surface: flattened, knobbly surface Underside: smooth

#### Use:

In wet and dry areas

Material: Polyurethane on polyether

#### **Properties:**

- Colour: charcoal
- Weight: 3 kg,
- thickness: 14 mm ■ Temperature resistance:
- -35°C to +95°C ■ Electrical resistance: 10<sup>6</sup> Ω
- (on ESD model) ■ Flame retardant (fire class: B1

#### Optional design:

- Anti-static
- Colour
- ESD model

according to DIN 4102/FMVSS 301)

#### Surface: knobbly

**Underside:** knobbly surface for maximum standing comfort and anti-slip protection

#### **WERKSTEP** Classic

#### **WERKSTEP Drehfit Classic**

■ For workplaces that require frequent

#### **WERKSTEP Duofit Classic**

- Mainly in dry areas

Surface: knobbly

**Underside:** knobbly surface for maximum standing comfort and anti-slip protection

### WERKSTEP WORKPLACE MATS FOR WET ROOM AREAS

#### WERKSTEP Hydrofit NBR

#### **WERKSTEP** Food-Grade Mat

**WERKSTEP** Food-Grade Mat

■ For workplaces exposed to water, oil or chips and shavings

Material: Nitrile, NBR

#### **Properties:**

- Colour: black
- Weight: 5.7 kg, thickness:14.5 mm
- Temperature resistance: up to +100 °C for short periods
- Electrical resistance: 10<sup>6</sup> Ω (on ESD model)
- Resistant against common industrial acids, bases, oils, hydrolysis resistant
- Suitable for welding stations

#### Optional design:

- Anti-static
- Flame retardant (fire class: B1 according to DIN 4102/FMVSS 302) - 5-year warranty
- Perforated design to drain off liquids
- ESD model -5-year warranty

#### Surface: knobbly

**Underside:** Textured underside for better adhesion, water-repellent effect

For dry and wet food preparation areas, OP, lab or hygiene areas

Material: Nitrile, NBR

#### **Properties:**

- Colour: black or tele grey
- Weight: 6.7 kg (black), 5.8 kg (tele grey), thickness: 14.5 mm
- Temperature resistance: +96°C for 8 hours

#### Surface: knobbly

Underside: Textured underside for better adhesion, water-repellent effect
